Question 1 of 80 Your teacher instructs you to edit a classmate's research paper. Which two tools should you use? (Choose 2.)

A. Design mode
B. Spelling checker
C. Linked notes
D. Comments

Question 2 of 80 When using an app, network, or service, you may be required to agree to an Acceptable Use Policy What are two types of information that an Acceptable Use Policy describes? (Choose 2.)

A. The consequences of violating the policy
B. Unacceptable uses of the app, network, or service
C. How to copyright data that you submit to the app, network, or service
D. How to monetize information through the app, network, or service

Question 3 of 80 What **mental health issue** can excessive social media use potentially lead to?
A. Improved social connections
B. Enhanced emotional resilience
C. Increased risk of mood swings
D. Heightened feelings of happiness

Question 4 of 80 What is a benefit of "**in private**" or "incognito" browsing?
A. Your web browser allows you to change your IP address.
B. Your web browser permits visits to websites that are normally blocked in your country.
C. Your web browser blocks advertisements.
D. Your web browser hides activities from other people who use the same device

Question 5 of 80 For each statement about the Android operating system, select True or False.

Note: You will receive credit for each correct response.

Answer Area

Android is open-source software **True**

Android is a desktop operating system False

Android requires the Google App Store False

Answer Area	True	False
Android is open-source software	◉	
Android is a desktop operating system		◉
Android requires the Google App Store		◉

Question 6 of 80 For each statement, select True or False.
Note: You will receive credit for each correct answer.

Answer Area	True	False
If you do not cite your sources, you are guilty of plagiarism	◉	
In written work, you must use footnotes to cite your sources.		◉
Plagiarism is the unauthorized and uncredited use of another person's idea or creative work	◉	
You must cite your sources only when you use someone else's work exactly as it was originally created.		◉

Question 6 of 80. For each statement, select True or False. Note: You will receive credit for each correct answer.

Answer Area

If you do not cite your sources, you are **guilty of plagiarism**. **True**

In written work, you must use footnotes to cite your sources. **False**

Plagiarism is the unauthorized and uncredited use of another person's ideas and written work. **True**

You must cite your sources only when you use someone else's work exactly as it was originally created. **False**

Question 7 of 80 What are two negative effects of posting a **derogatory meme** on social media?

(Choose 2)

A. It showcases your wit and digital artistry skills.

B. You can easily address a group of people who hold specific beliefs.

C. It remains traceable after the event that inspired you to post it.

D. Various viewers may interpret the meme differently

Question 8 of 80. Move each AI term from the list on the left to its definition on the right. Note: You will receive credit for each correct answer.

Focuses on creating physical machines capable of performing tasks autonomously or with minimal **human intervention.** - **Robotics**

Enables machines to gain knowledge from data and improve their performance over time without being explicitly programmed. **Machine Learning**

Possesses many small parts, like tiny computers, that can figure out patterns and connections just like humans do when they learn new things.

Neural Networks

Enables machines to process and comprehend text or speech, helping communication between humans and computers in a more instinctive way.

Natural Language Processing

Question 8 of 80 Move each AI term from the list on the left to its definition on the right.
Note: You will receive credit for each correct answer.

Focuses on creating physical machines capable of performing tasks autonomously or with minimal human intervention.	**Robotics**
Enables machines to gain knowledge from data and improve their performance over time without being explicitly programmed.	**Machine Learning**
Possesses many small parts, like tiny computers, that can figure out patterns and connections just like humans do when they learn new things.	**Neural Networks**
Enables machines to process and comprehend text or speech, helping communication between humans and computers in a more instinctive way.	**Natural Language Processing**

Question 9 of 80 You need to **identify personally** identifiable information (PII) that you should not expose online. For each statement, select Yes if it is personally identifiable information or No if it is not. Note: You will receive credit for each correct answer.

Answer Area

Eye color **False**

Date of birth **True**

Passport number **True**

Answer Area	True	False
Eye color		◉
Date of birth	◉	
Passport number	◉	

Question 10 of 80 You need to store **a list of webpages** so you can easily return to them later.

What web browser feature or setting should you use?

A. **Favorites or Bookmarks**

B. History or Timeline

C. Tabbed Browsing

D. Address box

Question 11 of 80 You are **conducting online** research. You need to refine your search to return results that are more relevant to your research subject. Which two techniques should you use? (Choose 2.) Note: You will receive credit for each correct answer.

A. **Enclose multi-word** search terms in quotation marks

B. Search for generic terms

C. Capitalize important term

D. Search for **root words** and exclude suffixes

Question 12 of 80 For each statement about time differences between **wired and wireless** networking, select True or False. Note: You will receive credit for each correct answer.

Answer Area

An encrypted Wi-Fi connection is **more secure** than an Ethernet connection **False**

Wireless networks typically have slower data transmission speeds than Ethernet connections **True**

An Ethernet connection typically provides fast network connection speeds than a Wi-Fi connection **True**

Question 12 of 80 For each statement about time differences between wired and wireless networking, select True or False. *Note: You will receive credit for each correct answer.*

Answer Area	True	False
An encrypted Wi-Fi connection is more secure than an Ethernet connection		◉
Wireless networks typically have slower data transmission speeds than Ethernet connections	◉	
An Ethernet connection typically provides fast network connection speeds than a Wi-Fi connection	◉	

Question 13 of 80 **You need to download** a file to use on your Windows computer. Which file extension will work directly on your computer?

A. .pkg

B. .dmg

C. .deb

D. **.exe**

Question 14 of 80 Which unit describes the **short-term data storage** used by a computing device to run applications?

A. CPU

B. **RAM**

C. Mbps

D. GHz

Question 15 of 80 You are researching information in a long document. For each statement, select Yes if you can use the Find feature to complete the task, or No if you cannot. Note: You will receive credit for each correct answer.

Answer Area

Locate a keyword or phrase within the document **Yes**

Change the format of all citations in your document **No**

Identify pages that include references by a specific author **No**

Answer Area	Yes	No
Locate a keyword or phrase within the document	◉	
Change the format of all citations in your document		◉
Identify pages that include references by a specific author		◉

Question 16 of 80 You have written an **original recipe** that you want to share on social media.

Your recipe includes a paragraph describing the dish, a list of ingredients, step-by-step instructions, and screen photos. Which guideline will most likely impact where you are able to share your recipe online?

A. Some social media sites have a **limit on the number** of characters or pictures you can post.

B. Some social media sites do not allow you to format information as a bulleted list.

C. Some social media sites do not allow you to post recipes.

D. Some social media sites have a limit on the length of videos you can post

Question 17 of 80 You enter a recipe into a Microsoft Word document as a single paragraph and convert it to a numbered list, as shown in the image.

You need to **separate the paragraph** into individual numbered list items, as shown in the image.

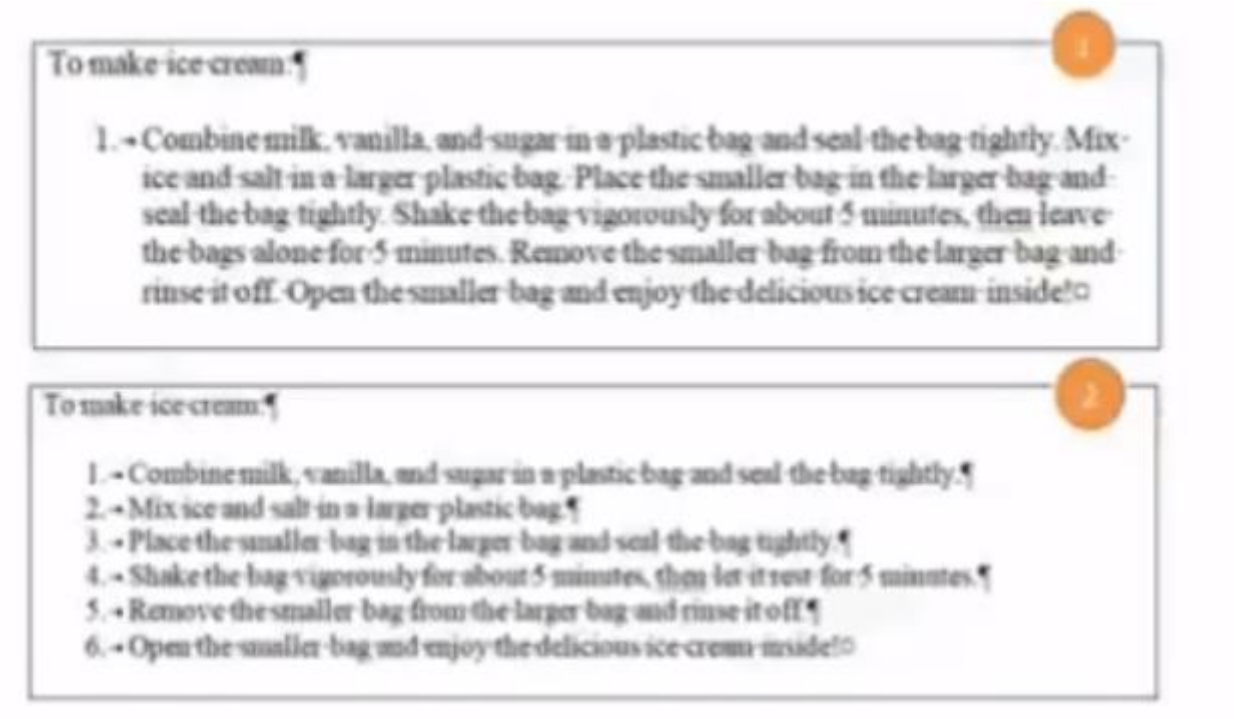
Which key (or key combination) should you press at the end of each sentence?

A. Shift+Tab

B. Tab

C. Shift+Enter

D. **Enter**



Question 18 of 80 Which setting will allow you to print **multiple slides** on one page of paper?

A. **Pages per sheet**

B. Slide layout

C. Double-sided or duplex

D. Slide sorter

Question 19 of 80 You need to maintain the **security of your smartphone**. Which three guidelines should you follow? (Choose 3.) Note: You will receive credit for each correct answer.

A. Disable **Wi-Fi and Bluetooth** when you're not using them.

B. Do not leave your **device unattended** in public or easily accessible areas.

C. Use a USB 3.0 or newer connection cable when connecting to a new computer.

D. Always use a surge protector when charging the device.

E. Update your smartphone's operating system only if you need a new feature offered in the update.

F. Avoid using public **Wi-Fi networks**.

Question 20 of 80 You need to follow **ethical standards** of behavior to protect your digital reputation. Which action meets the requirements?

A. Use public domain images for your **company website.**

B. Include the full version of your favorite song in a personal video profile on social media.

C. Comply with the terms of the Acceptable **Use Policy** while using your school's Wi-Fi.

D. Enhance the Work Experience section of your online resume by including tasks you intend to complete

Question 21 of 80 For each statement about the benefits of a good network infrastructure, select True or False. Note: You will receive credit for each correct answer.

Answer Area

Ensures that students can consistently connect to the campus network True

Enables students to connect to the school's computer lab from any location False

Supports the scaling of the school network without redesign as the student population increases True

Answer Area	True	False
Ensures that students can consistently connect to the campus network	◉	
Enables students to connect to the school's computer lab from any location		◉
Supports the scaling of the school network without redesign as the student population increases	◉	

Question 22 of 80 Your class is planning a field trip to visit college campuses. Your teacher schedules a video conference for the trip participants using software that displays each attendee on screen as shown.

You need to follow appropriate digital etiquette standards during the video conference.
For each statement, select Yes if it represents appropriate digital etiquette or No if it does not.
Note: You will receive credit for each correct answer.
Answer Area
Test the software before the meeting start time Yes
Position yourself and the camera so the camera lens is at eye level Yes
Ensure that your microphone is always on so you can participate No
When it's your turn to speak, introduce yourself and look at the onscreen image of the person you're addressing No

Answer Area	Yes	No
Test the software before the meeting start time	◉	
Position yourself and the camera so the camera lens is at eye level	◉	
Ensure that your microphone is always on so you can participate		◉
When it's your turn to speak, introduce yourself and look at the onscreen image of the person you're addressing	◉	

Question 23 of 80 You use a public computer at the library to check email and your bank account balance. You need to prevent other people who use the computer after you from accessing your email and bank accounts. Which two tasks should you complete before leaving the computer? (Choose 2.)

A. Clear the browser's cache and cookies
B. Clear the browser's history

C. Quit the browser sessions in which you're logged on to the websites
D. Log out of the email and bank websites

Question 24 of 80 You post a funny and embarrassing photo of your friend on social media How long will the information stay on the internet?

A. Forever, even after you delete it
B. 7 years
C. 24 hours
D. Until your friend deletes it

Question 25 of 80 For each statement about open source software, select True or False. Note: You will receive credit for each correct answer.
Answer Area

All free software is open source software False
Anyone can inspect, modify, and enhance the source code of open source software True
You must agree to an End User License Agreement before using open source software False

Answer Area	True	False
All free software is open source software		◉
Anyone can inspect, modify, and enhance the source code of open source software	◉	
You must agree to an End User License Agreement before using open source software		◉

Question 26 of 80 Your teacher instructs you to research a poster, a poem, a dramatic work, and an image that are protected by any of the six Creative Commons licenses and are not dedicated to the public domain. For each type of content use, select Yes if the terms of the Creative Commons licenses allow the use of the work or No if they do not.

Answer Area

Display the poster during a free movie night at your school No

Include the poem as part of a portfolio of your original work Yes

Perform the dramatic work for parents at a class talent show Yes

Display the image to other students as part of an in-class presentation Yes

Answer Area	Yes	No
Display the poster during a free movie night at your school		◉
Include the poem as part of a portfolio of your original work	◉	
Perform the dramatic work for parents at a class talent show	◉	
Display the image to other students as part of an in-class presentation	◉	

Question 27 of 80 Which three devices output information when connected to a non-touchscreen computer? (Choose 3.)

To answer, select the correct devices in the answer area. Note: You will receive credit for each correct answer.

Correct Selections:

1. Monitor (The screen)

2. Printer (The device with paper)

3. Headphones (The audio device)

Question 28 of 80 Which practice follows effective file-naming conventions?

A. Using the default file name

B. Using generic terms like "document" or "file"

C. Using clear names that describe the content

D. Including random letters and numbers for security

Question 29 of 80 Which two methods should you use to reduce eye strain while using a digital display? (Choose 2.)

A. Periodically look away from the screen and focus on a faraway object.

B. Shine the primary room light source directly onto the screen.

C. Tilt the screen directly toward your eyes.

D. Adjust the screen resolution to set the text at a comfortable size.

Question 30 of 80 What is a constructive reason for choosing not to engage with online trolling? I

A. It encourages the troll to continue their behavior

B. It motivates others to participate in the negative conversation

C. It helps avoid escalating the situation and reduces the troll's influence

D. It gives the troll an opportunity to explain their behavior.

A. A program that is designed to look harmless but allows unauthorized access to your computer

B. A program that installs itself on your system without your knowledge and tracks your online habits

C. Content that tricks you into revealing account codes and passwords by pretending to be legitimate

D. A program that can copy itself and spread to other computers

Question 32 of 80 Which two actions can you take to help maintain your digital privacy? (Choose 2.)

A. Configure your web browser settings to block cookies

B. Store your private documents in a cloud storage location

C. Use only your school email to send private information

D. Turn off GPS on your devices when you are not actively using it

Question 33 of 80 Online messaging apps simplify the process of communicating with other people. For each statement, select True or False. Note: You will receive credit for each correct answer.

Answer Area

People who use smart-messaging share the same beliefs and practices whether they are next door or in another country **False**

Communication through emojis reproduces social constructs such as stereotypes, prejudices, and limitations **True**

Emojis are a constantly changing concept that may not universally reflect sources of study **True**

Question 34 of 80 Move each data storage device from the list on the left to the correct definition on the right.

Note: You will receive credit for each correct answer.

A compact, lightweight external data storage device that uses flash memory **USB flash drive**

An external data storage device powered through the USB port of the computer **Portable hard drive**

An internal data storage device that stores and retrieves data using flash memory **Solid-state drive**

An internal electromechanical data storage device that stores and retrieves data using a rapidly rotating platter **Hard disk drive**

Note: You will receive credit for each correct answer.

A compact, lightweight external data storage device that uses flash memory	**USB flash drive**
An external data storage device powered through the USB port of the computer	**Portable hard drive**
An internal data storage device that stores and retrieves data using flash memory	**Solid-state drive**
An internal electromechanical data storage device that stores and retrieves data using a rapidly rotating platter	**Hard disk drive**

Question 35 of 80 Move each email address field from the list on the left to its purpose on the right.
Note: You will receive credit for each correct answer.

To copy other people on a message and NOT let them see the email addresses **Bcc**
To copy other people on a message and let each see the email addresses **Cc**
To send the message you received from one person to a different person **Forward**
To respond to a message sender and exclude other message recipients **Reply**
To respond to a message sender and all other known message recipients **Reply All**

To copy other people on a message and NOT let them see the email addresses	**Bcc**
To copy other people on a message and let each see the email addresses	**Cc**
To send the message you received from one person to a different person	**Forward**
To respond to a message sender and exclude other message recipients	**Reply**
To respond to a message sender and all other known message recipients	**Reply All**

Question 36 of 80 Which two options are benefits of digital collaboration? (Choose 2.)

Note: You will receive credit for each correct answer.

A. Collaborators can more easily avoid distractions while working
B. Ideas and feedback can be shared quickly
C. Collaborators can work with others from any geographic location
D. Confidential data is safer from theft and intrusion

Question 37 of 80 Move each cable from the list on the left to the best connection on the right.
Note: You will receive credit for each correct answer.

USB A

USB-C

Lightning

Micro USB

Question 38 of 80 You need to identify the functions that are managed by a computer operating system (not by an app). For each task, select OS if it is managed by the operating system and App if it is not. Note: You will not receive credit for a clean correct answer.

Answer Area

Edits text files **App**
Searches the internet **App**
Allocates hardware resources **OS**
Communicates with peripheral devices **OS**

Answer Area	App	OS
Edits text files	◉	
Searches the internet	◉	
Allocates hardware resources		◉
Communicates with peripheral devices		◉

Question 39 of 80 Which three elements must you include in a citation that references a printed book? (Choose 3.) Note: You will receive credit for each correct answer.

A. Book title
B. Publication date
C. Access date
D. Copyright status
E. Trademark status
F. Author name

Question 40 of 80 You are writing a research paper. You need to add references to your work. For each scenario, select YES if you must add a reference or NO if you do not. Note:
You will receive credit for each correct answer.

Answer Area
You use an idea from a news article **YES**
You write something new and original **NO**
You pull a paragraph from a webpage **YES**
You paraphrase content from a magazine article **YES**

Answer Area	YES	NO
You use an idea from a news article	◉	
You write something new and original		◉
You pull a paragraph from a webpage	◉	
You paraphrase content from a magazine article	◉	

Question 41 of 80 Which statement correctly describes the use of Creative Commons content in a project?

A. All Creative Commons content is automatically owned by the government and cannot be used for commercial purposes.
B. Creative Commons licenses restrict the use of educational content and do not allow for personal or commercial use.
C. Creative Commons licenses allow you to use, share, and modify content as long as you follow the terms specified by the license.
D. Creative Commons content can only be used if you pay a fee to the original creator for each use.

Question 42 of 80 Juliana takes photos with her phone for the school yearbook. She takes more than 50 photographs each day. Juliana needs to use the quickest and most reliable method to back up the photos so she can delete them from her phone each day. What should Juliana do?

A. Download the photos to a USB flash drive.
B. Email the photos to her teacher.
C. Sync her phone to cloud storage.
D. Delete only the photos she doesn't want to use.

Question 43 of 80 Which symptom is associated with prolonged computer use?

A. Increased back pain
B. Enhanced visual clarity
C. Improved muscle tone
D. Increased flexibility in joints

Question 44 of 80 Which two technologies do websites use to track visitors' online browsing habits? (Choose 2)

A. GPS locations
B. First-party cookies
C. In private/incognito browsing
D. VPN tunneling

Question 45 of 80 You are searching the web for information about how to grow your own vegetables. You scan through several pages of results. You need to determine which results are relevant to your search. For each webpage description, select Yes if the page is relevant to your search or No if it is not. Note: You will receive credit for each correct answer.

Answer Area

A tabloid magazine article about celebrity gardens	**NO**
A how-to article published by a prestigious university	**YES**
An ad for a popular gardening blog	**NO**

Answer Area	YES	NO
A tabloid magazine article about celebrity gardens		◉
A how-to article published by a prestigious university	◉	
An ad for a popular gardening blog		◉

Question 46 of 80 Which backup method offers the best protection for your data?

A. Sending files to others through entail
B. Deleting files you don't need anymore
C. Keeping files only on your computer's hard drive
D. Using both cloud storage and an external hard drive

Question 47 of 80 For each statement about printing documents, select True or False.
Answer Area

You can change document margins from the Print settings **False**
Duplex printing prints file content on both sides of the paper **True**
You can only change the paper size from the Page Setup option **False**
To preserve file formatting when electronically distributing a document, print the document to a PDF file **True**

Answer Area	True	False
You can change document margins from the Print settings		◉
Duplex printing prints file content on both sides of the paper	◉	
You can only change the paper size from the Page Setup option		◉
To preserve file formatting when electronically distributing a document, print the document to a PDF file	◉	

Question 48 of 80 Move each computer hardware element from the list on the left to the corresponding image on the right.

Central processing unit CPU - **Image of the CPU**
Hard disk drive HDD- **Image of the hard disk drive**
Motherboard- **Image of the motherboard**
Solid-state drive SSD - **Image of the solid-state drive**

Question 49 of 80 You and a partner are collaborating to create a sciesce report. You create a shared document and save it to the cloud. You intend to work on the report at different times. What type of collaboration does this refer to?

A. Synchronous
B. Offline
C. Simultaneous
D. Asynchronous

Question 50 of 80 You are working with other students on a science project. Your team will meet to discuss the project using the school's videoconferencing application. You will act as the host. You need to ensure that each student can talk about the project without being interrupted by other students. What should each student do to meet this goal?

A. Sign in early to verify that the audio and video technology works
B. Mute their microphone until you call on them
C. Remain on camera throughout the conference
D. Introduce themselves by name when they speak.

Question 51 of 80 You need to collaborate with your peers and share your class journal. Which digital platform is appropriate for this classroom activity?

A. Google Docs
B. Facebook
C. Instagram
D. Twitter

Question 52 of 80 Digital Primacy – True or False Statements
Answer Area
Updating your browser every six months wipes your digital footprint clean **False**
Anonymous online comments you post cannot be traced back to you if you use a web filter **False**
Potential employers can find images and messages posted on social media by applicants under the age of 18 **True**
Companies with which you share personal data in exchange for apps and services are not allowed to give the data to anyone else **False**

Answer Area	True	False
Updating your browser every six months wipes your digital footprint clean		◉
Anonymous online comments you post cannot be traced back to you if you use a web filter		◉
Potential employers can find images and messages posted on social media by applicants under the age of 18	◉	
Companies with which you share personal data in exchange for apps and services are not allowed to give the data to anyone else		◉

Question 53 of 80 Maddie uses social media to stay in touch with friends and family. She is planning to go on vacation next month. What is the safest way for Maddie to protect herself from online predators when posting information about her vacation activities?

A. Checking in online when she goes places so her parents know where she is
B. Posting her vacation plans before she leaves so her friends know she is out of town
C. Setting her social media location map to "public"

D. Waiting until she returns home to post vacation photos

Question 54 of 80 Which two connections can be used to connect a monitor to a computer? (Choose 2.)

A. HDMI
B. Ethernet
C. USB-C
D. PS/2

Question 55 of 80 You see a post on social media that contains an article about a current event. You want to evaluate the credibility of the article. Which factor is most important?

A. The number of pictures included in the article
B. The number of likes and shares the article has received
C. The length of the article and the details it covers
D. The news outlet's reputation and trustworthiness

Question 56 of 80 When assessing an online article's reliability, which is a critical step?

A. Verifying that the article includes multiple images
B. Counting the article's words to determine depth of content
C. Reviewing the article's publication date and checking for recent updates
D. Confirming the author's popularity on social media

Question 57 of 80 You need to ensure the security of your passwords. Which three guidelines should you follow? (Choose 3.)

A. Use the longest password or passphrase permissible by each password system.
B. Use passwords that are based on private personal information.
C. Use multi-factor authentication when available.
D. Use words that can be found in the dictionary of a language other than your primary language.
E. Use complex passwords and record them in a notebook that you keep with you at all times.
F. Use a different password for each account.

Question 58 of 80 For each statement about Creative Commons, select True or False.

Answer Area
Allows creators to grant licenses to only specific people **False**
Helps facilitate the sharing and discovery of creative works on the web **True**
Provides tools that allow creators to dedicate their works to the public domain **True**

Answer Area	True	False
Allows creators to grant licenses to only specific people		◉
Helps facilitate the sharing and discovery of creative works on the web	◉	
Provides tools that allow creators to dedicate their works to the public domain	◉	

Question 59 of 80 Which option is the best way to create a secure password?

A. Use your name and birthday
B. Use your favorite movie title
C. Use a mix of letters, numbers, and symbols

D. Use something easy to remember, like "12345" or "p@ssword"

Question 60 of 80 Which statement about web-based applications is correct?

A. Web applications process information locally on your computer
B. The web version of a desktop application has all the same features as the desktop version
C. Before you can use a web application, you must install it on your computer
D. You must have an içternet connection to use a web application.

Question 61 of 80 For each statement about copyright, select True or False.

Answer Area
Work must be registered with the copyright office to be protected by copyright **False**
Copyright laws protect the right to reproduce the copyrighted work **True**
Copyright laws protect only works of art, such as paintings and sculptures

Answer Area	True	False
Work must be registered with the copyright office to be protected by copyright		◉
Copyright laws protect the right to reproduce the copyrighted work	◉	
Copyright laws protect only works of art, such as paintings and sculptures		◉

False

Question 62 of 80 You are working on a research project. You locate a long online article that contains information related to your research topic. Which information can you locate on the webpage by using the browser's Find feature?

A. A list of secondary topics related to your primary research topic
B. The number of times the article mentions a specific topic
C. The answer to a specific Question related to the article topic
D. Related comments on social media sites

Question 63 of 80 You are searching the web to gather information for a research paper. You need to identify webpages that are likely to contain accurate and unbiased information for your research. For each statement, select Yes if it indicates that a webpage meets the requirements or No if it does not.

Answer Area
The webpage has misspelled words **No**
The webpage text is written objectively **Yes**
The webpage includes a list of references **Yes**

Answer Area	Yes	No
The webpage has misspelled words		◉
The webpage text is written objectively	◉	
The webpage includes a list of references	◉	

Question 64 of 80 As an ethical computer user, you have a responsibility to practice good netiquette at all times. You need to identify examples of good netiquette in an office work environment. For each statement, select Yes if it is an example of good netiquette or No if it is not.

Answer Area

Copy your coworkers on all email messages you send to keep them in the loop- **Yes**

Share large files from a cloud storage location instead of attaching them to email messages - **Yes**

Apply the same standards and values to online interactions that you do to face-to-face interactions - **Yes**

Answer Area	Yes	No
Copy your coworkers on all email messages you send to keep them in the loop	◉	
Share large files from a cloud storage location instead of attaching them to email messages	◉	
Apply the same standards and values to online interactions that you do to face-to-face interactions	◉	

Question 65 of 80 You are making suggestions, corrections, and comments on a classmate's research paper. What process are you performing?

A. Coauthoring
B. Attributing
C. Peer reviewing
D. Fact checking

Question 66 of 80 What is a benefit of "in private" or "incognito" browsing?

A. Your web browser remembers the files you download
B. Digital fingerprinting can't be used to track your browser activities
C. Your web browser doesn't retain cookies
D. Your web browser blocks advertisements

Question 67 of 80 You need to add artwork to a presentation you're creating for your class. You do NOT have time to get permission to use the artwork. For each statement, select Yes if you may legally use the artwork without permission or No if you may not.

Answer Area

The artist is your friend **No**

The artwork is protected by copyright **No**

The copyright owner dedicated the artwork to the public domain **Yes**

Answer Area	Yes	No
The artist is your friend		◉
The artwork is protected by copyright		◉
The copyright owner dedicated the artwork to the public domain	◉	

Question 68 of 80 For each statement about citation practices, select True or False.

Answer Area

If you quote directly from a speech, you must cite the source **True**

If you summarize someone else's work, you must cite the source **True**

If you paraphrase someone else's work, you must cite the source **True**

You should place quotation marks around phrases that you quote from someone else's work True

Answer Area	True	False
If you quote directly from a speech, you must cite the source	◉	
If you summarize someone else's work, you must cite the source	◉	
If you paraphrase someone else's work, you must cite the source	◉	
You should place quotation marks around phrases that you quote from someone else's work	◉
