Points: 0/1

1.

Do NOT use special characters (! @ # $ % ^ & * () ' ' : ; ?, [] { } and |).	Yes ✓
Insert spaces between words	Yes ✘ **Correct answer:** Drink
Use long, descriptive file names	Yes ✓
For file name series that include dates, use the format MMDDYY	Yes ✘ **Correct answer:** Drink

✘

Points: 0/1

2. You are having problems with your Windows laptop computer. Before contacting support, you must gather information about your device, its processor, RAM amount, and the version of OS. On a Windows computer, where can you find the device and system information?

- Settings > System Info
- File > Info
- **Desktop > System Info ✘**
- Settings > About ✓

✓

Points: 1/1

3. You post a funny and embarrassing photo of your friend on social media How long will the information stay on the internet?

- Until your friend deletes it
- **Forever, even after you delete it ✓**
- 7 years
- 24 hours

✓

Points: 1/1

4. You need to **identify personally** identifiable information (PII) that you should not expose online. For each statement, select Yes if it is personally identifiable information or No if it is not. Note: You will receive credit for each correct answer.

Answer Area

Passport number	True ✓
Eye color	False ✓
Date of birth	True ✓

✘

Points: 0/1

5. Which three devices provide input when connected to a non-touchscreen computer? (Choose 3.)

- [ ] Processor
- [x] **Printer ✘**
- [ ] Keyboard ✓
- [ ] Mouse ✓
- [x] **Headset (with microphone) ✓**
- [x] **Monitor ✘**

✓

Points: 1/1

6. What is a benefit of "in private" or "incognito" browsing?

- ○ Digital fingerprinting can't be used to track your browser activities
- ○ Your web browser remembers the files you download
- ○ Your web browser blocks advertisements
- ◉ **Your web browser doesn't retain cookies ✓**

✘

Points: 0/1

7. What is the main contributor to your digital identity?

- ○ Data stored on your computer that allows you to log in to a secure website through a secure account
- ○ Documents stored on your computer
- ◉ **For each site or service you use, your username and password ✘**
- ○ The information you post on social networking sites, blogs, and forums ✓

✓

Points: 1/1

8. You need to collaborate with your peers and share your class journal. Which digital platform is appropriate for this classroom activity?

- ○ Facebook
- ◉ **Google Docs ✓**
- ○ Twitter
- ○ Instagram

✘

Points: 0/1

9. Which two methods should you use to reduce eye strain while using a digital display? (Choose 2.)

- [x] **Position the screen slightly above eye level ✘**
- [ ] Shine the primary light source directly onto the screen
- [x] **Make sure the primary light source is not shining directly into your eyes ✓**
- [ ] Make sure the screen is not too close to your eyes ✓

✓

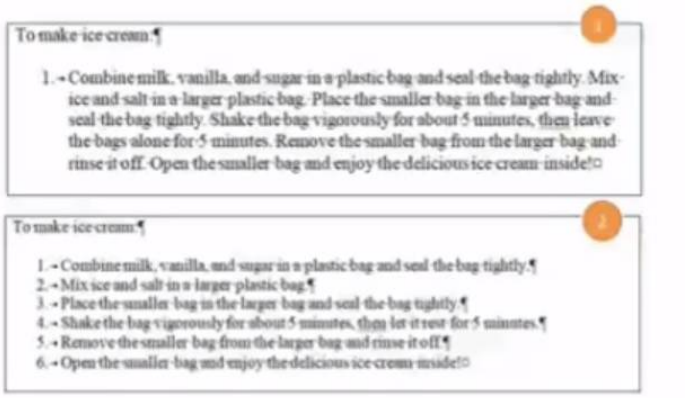
Points: 1/1

10. Which option is the best way to create a secure password?

- ○ Use your name and birthday
- ○ Use your favorite movie title
- ◉ **Use a mix of letters, numbers, and symbols ✓**
- ○ Use something easy to remember, like "12345" or "p@ssword"

✓

Points: 1/1



11. You enter a recipe into a Microsoft Word document as a single paragraph and convert it to a numbered list, as shown in the image. You need to **separate the paragraph** into individual numbered list items, as shown in the image.

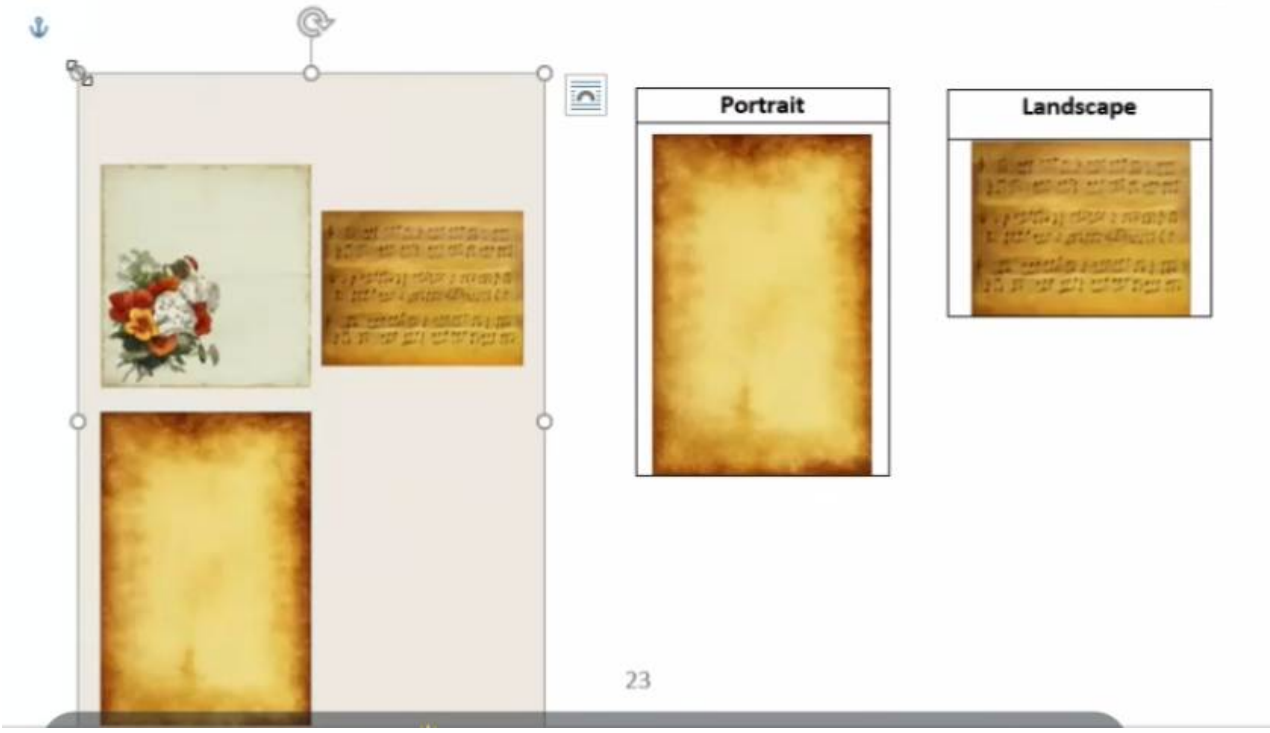
Which key (or key combination) should you press at the end of each sentence?

- ○ Tab
- ○ Shift+Enter
- ○ Shift+Tab
- ◉ **Enter ✓**

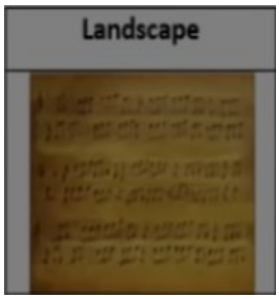
✘

Points: 0/1

12. Move the appropriate images to the correct orientations.



Portrait ✘



landscape

✓

Points: 1/1

13. You need to add artwork to a presentation you're creating for your class. You do NOT have time to get permission to use the artwork. For each statement, select Yes if you may legally use the artwork without permission or No if you may not.

Answer Area

The artwork is protected by copyright	No ✓
The artist is your friend	No ✓
The copyright owner dedicated the artwork to the public domain	Yes ✓

✓

Points: 1/1

14. For each statement about open source software, select True or False. Note:

You will receive credit for each correct answer.

Answer Area

Anyone can inspect, modify, and enhance the source code of open source software	True ✓
All free software is open source software	False ✓
You must agree to an End User License Agreement before using open source software	False ✓

✓

Points: 1/1

15. Which symptom is associated with prolonged computer use?

- Enhanced visual clarity
- Improved muscle tone
- **Increased back pain ✓**
- Increased flexibility in joints

✓

Points: 1/1

16. Which unit describes the **short-term data storage** used by a computing device to run applications?

- CPU
- GHz
- **RAM ✓**
- Mbps

✓

Points: 1/1

17. You see a post on social media that contains an article about a current event.

You want to evaluate the credibility of the article. Which factor is most important?

- The number of likes and shares the article has received
- The length of the article and the details it covers
- The number of pictures included in the article
- **The news outlet's reputation and trustworthiness ✓**

✓

Points: 1/1

18. Evaluate the image below and identify each connection type

The right (blue) cable has a → Micro USB connector✓

The left (white) cable has a → Lightning connector✓

The middle (black) cable has a → USB-C connector✓

✓

Points: 1/1

19. Which hardware component does a desktop computer use for long-term data storage?

- Central processing unit (CPU)
- **Hard disk drive ✓**
- USB flash drive
- Motherboard

✘

Points: 0/1

20. You and a friend are collaborating on a web comic. Move each term from the list on the left to its activity on the right. (Not all terms will be used.)

You and your friend conduct a video chat to brainstorm ideas for the story.	Asynchronous Collabora ✘ **Correct answer:** Synchronous Collaboration
On your own, you write the story, while your friend draws the artwork. While you work, you send emails with questions and updates	Coauthoring ✘ **Correct answer:** Asynchronous Collaboration
You and your friend both post the finished comic to your social media accounts, and tag each other in the post	Natural Language Proce ✘ **Correct answer:** Coauthoring
Enables machines to process and comprehend text or speech, helping communication between humans and computers in a more instinctive way.	Synchronous Collaborati ✘ **Correct answer:** Natural Language Processing

---

✓

Points: 1/1

21. For each statement, select Yes if it is a warning that an email is a phishing message, or No if it is not.

The message uses a generic greeting	Yes ✓
The message includes a threat	Yes ✓
The message requests your private information	Yes ✓

✓

Points: 1/1

22. Which practice helps protect your computer and personal data?

- Ignoring software update notifications
- Sharing your password with trusted friends
- **Installing and updating antivirus software regularly ✓**
- Downloading files from unknown websites.

✘

Points: 0/1

23. You are searching the web to gather information for a research paper. You need to identify webpages that are likely to contain accurate and unbiased information for your research. For each statement, select Yes if it indicates that a webpage meets the requirements or No if it does not.

Answer Area

The webpage has misspelled words	No ✓
The webpage includes a list of references	Yes ✘ **Correct answer:** Yes
The webpage text is written objectively	Yes ✓

✓

Points: 1/1

24. For each statement about time differences between **wired and wireless** networking, select True or False. Note: You will receive credit for each correct answer.

Answer Area

Wireless networks typically have slower data transmission speeds than Ethernet connections	True ✓
An encrypted Wi-Fi connection is more secure than an Ethernet connection	False ✓
An Ethernet connection typically provides fast network connection speeds than a Wi-Fi connection	True ✓

✓

Points: 1/1

25. What are two negative effects of posting a **derogatory meme** on social media?

(Choose 2)

- ☐ It showcases your wit and digital artistry skills.
- ☑ **Various viewers may interpret the meme differently ✓**
- ☐ You can easily address a group of people who hold specific beliefs.
- ☑ **It remains traceable after the event that inspired you to post it. ✓**

✓

Points: 1/1

26. Your teacher instructs you to research a poster, a poem, a dramatic work, and an image that are protected by any of the six Creative Commons licenses and are not dedicated to the public domain. For each type of content use, select Yes if the terms of the Creative Commons licenses allow the use of the work or No if they do not.

Answer Area

Include the poem as part of a portfolio of your original work	Yes ✓
Display the image to other students as part of an in-class presentation	Yes ✓
Perform the dramatic work for parents at a class talent show	Yes ✓
Display the poster during a free movie night at your school	No ✓

✓

Points: 1/1

27. Your teacher instructs you to edit a classmate's research paper. Which two tools should you use? (Choose 2.)

- [x] **Spelling checker ✓**
- [ ] Linked notes
- [ ] Design mode
- [x] **Comments ✓**

✘

Points: 0/1

28. You're having difficulty sending and receiving information. How can you identify whether your device is connected to the Internet?

- (•) **Download a Speedtest ✘**
- ( ) Open a browser ✓
- ( ) Try saving a file.
- ( ) Try sending a text

✓

Points: 1/1

29. Which two methods should you use to avoid computer-related injuries? (Choose 2.)

- [x] **Take frequent short breaks during which you walk around ✓**
- [ ] Use a mouse with a switch to adjust the DPI when needed
- [ ] Upgrade to a high-end graphics card to reduce eye strain
- [x] **Use an ergonomic keyboard so your wrists are in a more natural position ✓**

✓

Points: 1/1

30. You write a research paper for school. In your paper, you paraphrase information from an article you read on the internet. You do not cite the source of the information in your bibliography. What is this an example of?

- ( ) Attribution
- ( ) Creative Commons use
- ( ) Fair use
- (•) **Plagiarism ✓**

✓

Points: 1/1

31. Digital Primacy – True or False Statements

Answer Area

Anonymous online comments you post cannot be traced back to you if you use a web filter	False ✓
Updating your browser every six months wipes your digital footprint clean	False ✓
Companies with which you share personal data in exchange for apps and services are not allowed to give the data to anyone else	False ✓
Potential employers can find images and messages posted on social media by applicants under the age of 18	True ✓

✘

Points: 0/1

32. For each statement about the differences between wired and wireless networking, select True or False Note: You will receive credit for each correct answer

An Ethernet connection typically provides faster network connection speeds than a Wi-Fi connection — False ✘

Correct answer: True

An encrypted Wi-Fi connection is more secure than an Ethernet connection — True ✘

Correct answer: False

Wi-Fi connections typically have fewer data transmission delays than, Ethernet connections — False ✓

✓

Points: 1/1

33. Juliana takes photos with her phone for the school yearbook. She takes more than 50 photographs each day. Juliana needs to use the quickest and most reliable method to back up the photos so she can delete them from her phone each day. What should Juliana do?

- (●) **Sync her phone to cloud storage. ✓**
- ( ) Delete only the photos she doesn't want to use.
- ( ) Download the photos to a USB flash drive.
- ( ) Email the photos to her teacher.

✓

Points: 1/1

34. Which setting will allow you to print **multiple slides** on one page of paper?

- ( ) Slide sorter
- ( ) Slide layout
- (●) **Pages per sheet ✓**
- ( ) Double-sided or duplex

✓

Points: 1/1

35. For each statement about copyright, select True or False.

Answer Area

Work must be registered with the copyright office to be protected by copyright — False ✓

Copyright laws protect only works of art, such as paintings and sculptures — False ✓

Copyright laws protect the right to reproduce the copyrighted work — True ✓

✓

Points: 1/1

36. For each statement about the differences between internet and intranet, select True or False

An intranet connection is more secure than an internet connection — True ✓

An intranet has an unlimited number of users and can be accessed by anyone — False ✓

The internet is privately owned by a consortium of companies — False ✓

✓

Points: 1/1

37. Which two connections can be used to connect a monitor to a computer? (Choose 2.)

- [ ] Ethernet
- [ ] PS/2
- [x] **HDMI ✓**
- [x] **USB-C ✓**

✓

Points: 1/1

38. Which two options are benefits of digital collaboration? (Choose 2.)

Note: You will receive credit for each correct answer.

- [ ] Confidential data is safer from theft and intrusion
- [ ] Collaborators can more easily avoid distractions while working
- [x] **Ideas and feedback can be shared quickly ✓**
- [x] **Collaborators can work with others from any geographic location ✓**

✓

Points: 1/1

39. Which statement correctly describes the use of Creative Commons content in a project?

- ○ Creative Commons content can only be used if you pay a fee to the original creator for each use.
- ○ Creative Commons licenses restrict the use of educational content and do not allow for personal or commercial use.
- ◉ **Creative Commons licenses allow you to use, share, and modify content as long as you follow the terms specified by the license.**

✓

- ○ All Creative Commons content is automatically owned by the government and cannot be used for commercial purposes.

✘

Points: 0/1

40. You are working on a group project and one group member is making changes to the shared project without consulting the rest of the group. What should you do?

- ○ Restore the document by removing their changes.
- ◉ **Take away the person's editing access to the document. ✘**
- ○ Ignore the changes and keep working on your part.
- ○ Have a group discussion about editing the document ✓

✓

Points: 1/1

41. You and a partner are collaborating to create a sciesce report. You create a shared document and save it to the cloud. You intend to work on the report at different times.

What type of collaboration does this refer to?

- ○ Simultaneous
- ○ Offline
- ◉ **Asynchronous ✓**
- ○ Synchronous

✘

Points: 0/1

42. You are writing a research paper. You need to add references to your work. For each scenario, select Yes if you must add a reference or No if you do not.

You use an idea from a news article	Yes ✓	
You write something new and original	No ✓	
You copy a paragraph from a webpage	Yes ✘	**Correct answer:** Yes
You paraphrase content from a magazine article	Yes ✘	**Correct answer:** Yes

✓

Points: 1/1

43. You need to follow **ethical standards** of behavior to protect your digital reputation. Which action meets the requirements? (Choose 2.)

- [x] **Comply with the terms of the Acceptable Use Policy while using your school's Wi-Fi. ✓**
- [ ] Include the full version of your favorite song in a personal video profile on social media.
- [ ] Enhance the Work Experience section of your online resume by including tasks you intend to complete
- [x] **Use public domain images for your company website. ✓**

✓

Points: 1/1

44. For each physical health risk, select Yes if it is associated with prolonged computer use or No if it is not.

Answer Area

Frequent headaches	Yes ✓
Elevated blood pressure	No ✓
Eye strain	Yes ✓
Discomfort in the neck	Yes ✓

✓

Points: 1/1

45. Which two actions can you take to help maintain your digital privacy? (Choose 2.)

- [x] **Configure your web browser settings to block cookies ✓**
- [ ] Use only your school email to send private information
- [ ] Store your private documents in a cloud storage location
- [x] **Turn off GPS on your devices when you are not actively using it ✓**

✘

Points: 0/1

46. Move each collaboration term to the correct description. (Terms: Coauthoring, Editing)

Using the Spelling & Grammar tool to correct errors in a classmate's Word Online document g	Coauthoring ✘ **Correct answer:** Editing
Creating five slides for a group PowerPoint presentation that is saved on OneDrive	Coauthoring ✘ **Correct answer:** Coauthoring
Proofreading a Google Docs document for a classmate	Editing ✓
Taking photos and inserting them into a Google Slides presentation created by your classmates	Editing ✘ **Correct answer:** Coauthoring

✓

Points: 1/1

47. What is a benefit of "**in private**" or "incognito" browsing?

- Your web browser blocks advertisements.
- Your web browser permits visits to websites that are normally blocked in your country.
- Your web browser allows you to change your IP address.
- **Your web browser hides activities from other people who use the same device ✓**

✓

Points: 1/1

48. Which practice follows effective file-naming conventions?Using the default file name

- Using the default file name
- Using generic terms like "document" or "file"
- **Using clear names that describe the content ✓**
- Including random letters and numbers for security

✓

Points: 1/1

49. You have written an **original recipe** that you want to share on social media.

Your recipe includes a paragraph describing the dish, a list of ingredients, step-by-step instructions, and screen photos. Which guideline will most likely impact where you are able to share your recipe online?

- Some social media sites do not allow you to format information as a bulleted list
- **Some social media sites have a limit on the number of characters or pictures you can post. ✓**
- Some social media sites have a limit on the length of videos you can post
- Some social media sites do not allow you to post recipes.

✓

Points: 1/1

50. For each statement about printing documents, select True or False.

Answer Area

You can change document margins from the Print settings	False ✓
To preserve file formatting when electronically distributing a document, print the document to a PDF file	True ✓
Duplex printing prints file content on both sides of the paper	True ✓
You can only change the paper size from the Page Setup option	False ✓

✘

Points: 0/1

51. What are three key elements of an effective Acceptable Use Policy? (Choose 3.)

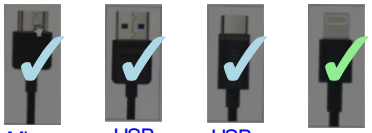
- [x] **A bibliography ✘**
- [x] **A copyright and trademark statement ✘**
- [ ] A definition section ✓
- [x] **A violations or sanctions section ✓**
- [ ] A policy statement ✓
- [ ] A license agreement

✓

Points: 1/1

52. Move each cable from the list on the left to the best connection on the right.

Note: You will receive credit for each correct answer.



Micro USB✓ | USB A ✓ | USB-C✓ | **Lightning** ✓

✘

Points: 0/1

53. Your class is planning a field trip to visit college campuses. Your teacher schedules a video conference for the trip participants using software that displays each attendee on screen as shown.

You need to follow appropriate digital etiquette standards during the video conference.

For each statement, select Yes if it represents appropriate digital etiquette or No if it does not.

Note: You will receive credit for each correct answer.

Ensure that your microphone is always on so you can participate	No ✓
When it's your turn to speak, introduce yourself and look at the onscreen image of the person you're addressing	Yes ✘ **Correct answer:** YES
Test the software before the meeting start time	Yes ✓
Position yourself and the camera so the camera lens is at eye level	YES ✘ **Correct answer:** Yes

---

✓

Points: 1/1

54. You need to identify tools that help you to protect your digital privacy

For each statement, select Yes if the feature protects digital privacy and No if it does not.

Disk defragmenter	No ✓
Password-management program	Yes ✓
Anti-tracking browser extension	Yes ✓

✓

Points: 1/1

55. Which statement about web-based applications is correct?

- The web version of a desktop application has all the same features as the desktop version
- **You must have an içternet connection to use a web application. ✓**
- Before you can use a web application, you must install it on your computer
- Web applications process information locally on your computer

---

✘

Points: 0/1

56. Which of the following is an example of cyberbullying?

- Helping a friend by posting researched articles about bullying to their blog
- Posting songs of your favorite artists online and charging your friends money to download them.
- **Writing an opinion article about the unfair requirements of cheerleader tryouts and submitting it to your school news website.**

✘

- Stealing someone's password and pretending to be that person while tweeting or posting things online. ✓

✓

Points: 1/1

57. You use a public computer at the library to check email and your bank account balance. You need to prevent other people who use the computer after you from accessing your email and bank accounts. Which two tasks should you complete before leaving the computer? (Choose 2.)

- [x] **Clear the browser's cache and cookies ✓**
- [x] **Log out of the email and bank websites ✓**
- [ ] Quit the browser sessions in which you're logged on to the websites
- [ ] Clear the browser's history

✓

Points: 1/1

58. Move each AI term from the list on the left to its definition on the right. Note: You will receive credit for each correct answer.

Possesses many small parts, like tiny computers, that can figure out patterns and connections just like humans do when they learn new things.	Neural Networks ✓
Enables machines to gain knowledge from data and improve their performance over time without being explicitly programmed.	Machine Learning ✓
Focuses on creating physical machines capable of performing tasks autonomously or with minimal human intervention.	Robotics ✓
Enables machines to process and comprehend text or speech, helping communication between humans and computers in a more instinctive way.	Natural Language ✓

✘

Points: 0/1

59. For each statement about images that are protected by Creative Commons licenses and not in the public domain, select True or False.

If you use the image, you must cite its source	False ✘ **Correct answer:** True
You can use the image unconditionally	True ✘ **Correct answer:** False
You can use the image for free	True ✓

✘

Points: 0/1

60. Move each type of storage drive to its description

Can be accessed on any device with an internet connection	Hard disc drive (HDD) ✘ **Correct answer:** Cloud drive
Is small enough to carry on a keychain	Solid state drive (SSD) ✘ **Correct answer:** Flash drive
Can be installed permanently in a computer and does not use moving parts	Flash drive ✘ **Correct answer:** Solid state drive (SSD)
Uses a magnetic disc to read and write data	Cloud drive ✘ **Correct answer:** Hard disc drive (HDD)

✘

Points: 0/1

61. You need to create an exact copy of your Windows computer system to ensure that you can restore the computer, applications, and files to the current state in the event of a catastrophic system crash. What should you do?

- ○ Set up Windows Backup
- ○ Create a system image ✓
- ○ Turn on File History
- ◉ **Create a system repair disc. ✘**

✓

Points: 1/1

62. A boy in your art class posts a photo of a pig with your head pasted on it on a social media site. What should you do?

- ○ Post a revenge photo with his face on bacon.
- ○ Assume it's about your weight and go on a diet
- ○ Respond with a neutral comment just so he knows you saw it.
- ◉ **Tell the boy you're curious and want to understand why he posted the photo. ✓**

✓

Points: 1/1

63. Which backup method offers the best protection for your data?

- ○ Deleting files you don't need anymore
- ○ Keeping files only on your computer's hard drive
- ○ Sending files to others through entail
- ◉ **Using both cloud storage and an external hard drive ✓**

✓

Points: 1/1

64. You need to maintain the **security of your smartphone**. Which three guidelines should you follow? (Choose 3.) Note: You will receive credit for each correct answer.

- ☑ **Disable Wi-Fi and Bluetooth when you're not using them. ✓**
- ☑ **Avoid using public Wi-Fi networks. ✓**
- ☐ Update your smartphone's operating system only if you need a new feature offered in the update.
- ☐ Use a USB 3.0 or newer connection cable when connecting to a new computer.
- ☑ **Do not leave your device unattended in public or easily accessible areas. ✓**
- ☐ Always use a surge protector when charging the device.

✘

Points: 0/1

65. You plan to purchase a portable computing device.

The device must be able to run on battery power and must have a built-in physical keyboard.

(Choose 2.)

- [ ] Windows laptop computer ✓
- [ ] Windows All-in-One computer
- [ ] Android smartphone
- [x] **Mac desktop computer ✘**
- [x] **Chromebook ✓**
- [ ] Android tablet

✓

Points: 1/1

66. You are working with other students on a science project. Your team will meet to discuss the project using the school's videoconferencing application. You will act as the host. You need to ensure that each student can talk about the project without being interrupted by other students. What should each student do to meet this goal?

- (•) **Mute their microphone until you call on them ✓**
- ( ) Introduce themselves by name when they speak.
- ( ) Sign in early to verify that the audio and video technology works
- ( ) Remain on camera throughout the conference

✘

Points: 0/1

67. Your teacher has cautioned you about protecting your digital identity. Which three activities help define your digital identity? (Choose three)

- [x] **Using Twitter and Snapchat instead of Facebook ✘**
- [ ] Comments you post or tweet ✓
- [x] **Only posting from a phone, never from a computer ✘**
- [ ] Your profile ✓
- [ ] Having multiple email accounts
- [x] **Media posted by other people that you share with your friends ✓**

✓

Points: 1/1

68. For each statement about citation practices, select True or False.

You should place quotation marks around phrases that you quote from someone else's work	True ✓
If you paraphrase someone else's work, you must cite the source	True ✓
If you quote directly from a speech, you must cite the source	True ✓
If you summarize someone else's work, you must cite the source	True ✓

✓

Points: 1/1

69. When using an app, network, or service, you may be required to agree to an Acceptable Use Policy What are two types of information that an Acceptable Use Policy describes? (Choose 2.)

- [x] **The consequences of violating the policy ✓**
- [x] **Unacceptable uses of the app, network, or service ✓**
- [ ] How to monetize information through the app, network, or service
- [ ] How to copyright data that you submit to the app, network, or service

---

✓

Points: 1/1

70. Your name is Sam Grey. You are updating a school project and want to save a new version. You need to choose a file name that clearly identifies the author, is easy to read, and supports web usability and cross-platform compatibility. Which file name should you use?

- SamGrey pf3ject#1>v3.docx
- Sam Grey Project1-version3.docx
- **SamGreyProject1v3.docx ✓**
- samgreyprojectoneversionthree04/15/2025.docx

✘

Points: 0/1

71. When assessing an online article's reliability, which is a critical step?

- Reviewing the article's publication date and checking for recent updates ✓
- Confirming the author's popularity on social media
- **Counting the article's words to determine depth of content ✘**
- Verifying that the article includes multiple images

✓

Points: 1/1

72. As an ethical computer user, you have a responsibility to practice good netiquette at all times. You need to identify examples of good netiquette in an office work environment. For each statement, select Yes if it is an example of good netiquette or No if it is not.

Answer Area

Share large files from a cloud storage location instead of attaching them to email messages	Yes ✓
Copy your coworkers on all email messages you send to keep them in the loop	Yes ✓
Apply the same standards and values to online interactions that you do to face-to-face interactions	Yes ✓

✘

Points: 0/1

73. For each statement about types of social media activity, select Yes if it will likely be allowed on most social media platforms or No if it likely will not be allowed

Impersonate a real person	No ✓
Post negative reviews of products or services	No ✘ **Correct answer:** Yes
Post original content that you created yourself	Yes ✓
Share someone else's content that is their intellectual property	Yes ✘ **Correct answer:** No

---

✓

Points: 1/1

74. Online messaging apps simplify the process of communicating with other people, whether they are next door or in another country. For each statement, select True or False.

Respectful language conveys prejudices such as stereotypes, expectations and limitations	False ✓
People with similar heritages have the same beliefs and priorities	False ✓
Culture is a constantly changing concept that may not completely reflect someone's identity	True ✓

✘

Points: 0/1

75. Ava reshared Mia's post on social media, and now more people can see it.

Which action would help protect Mia's personal data?

- ○ Sharing posts with friends only, trusting they will keep your information private
- ○ Turning on privacy settings to control who can see your information ✓
- ◉ **Sharing your phone number or address in your profile bio to stay connected ✘**
- ○ Making your profile public so everyone can see your posts.

✓

Points: 1/1

76. Which three devices output information when connected to a non-touchscreen computer? (Choose 3.)

To answer, select the correct devices in the answer area. Note: You will receive credit for each correct answer.

- ☑ **Monitor (The screen) ✓**
- ☑ **Printer (The device with paper) ✓**
- ☑ **Headphones (The audio device) ✓**

✓

Points: 1/1

77. Move each concept to its correct description

A set of defined rules that allow different software applications to communicate with each other	API ✓
A computer program that simulates conversation with human users	Chatbot ✓
A type of machine learning that uses artificial neural networks to learn from data	Deep Learning ✓
A type of artificial intelligence that is used to create new data, such as text, images, or music	Generative AI ✓

✓

Points: 1/1

78. Which two methods should you use to reduce eye strain while using a digital display? (Choose 2.)

- ☑ **Periodically look away from the screen and focus on a faraway object. ✓**
- ☐ Tilt the screen directly toward your eyes.
- ☑ **Adjust the screen resolution to set the text at a comfortable size. ✓**
